

## Sit-ups in squares

Professor Foodsmart is doing some sit-ups to help him keep fit and Snack is helping him keep count! Use the squares to help you copy the picture.

## Sporty snowball

Can you name the six objects that are rolled up in Snack's giant snowball? They are all things you would use for sport!

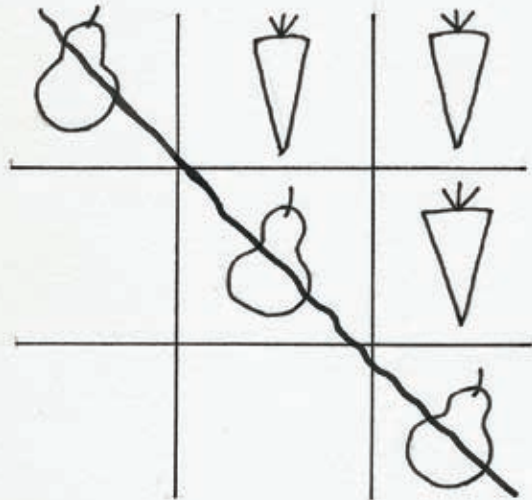

## Pancake pans

Can you match the pancakes to their pans? If you get stuck, you could cut them out!

## Carrots & Pears

Try playing Noughts and Crosses using carrots and pears! Draw a grid like this one then choose who will be carrots and who will be pears. Take it in turns to draw your fruit or vegetable in an empty square.

The first person to fill a line wins the game! The line can be horizontal, vertical or diagonal. Try playing the game using different fruits and vegetables!
